Course Description:

- English II is designed to introduce students to major works and authors in World Literature. Through close examination, discussion, and writing, students will analyze the varied themes and structures of World Literature.
- English II is further designed to ensure students master conventions of standard American English in writing.
- Students will take the SAT or ACT in their junior year; this course will therefore emphasize grammar, writing styles and techniques, and the writing process in preparation for the writing sections of those exams. We will consider complex sentence structure, organizational patterns used in essays, and a refinement of vocabulary skills.
- English II students will read five major literary works, use a new textbook series specifically tailored to high academic standards, and engage in daily grammar or writing exercises.
- These skills will be used to prepare students for the North Carolina English II End-of-Course Exam.

Course Standard: North Carolina Standard Course of Study
